

## 18' X 34' GOTHIC

## TURNBUCKLE BRACE

A technical diagram of a pool panel assembly. The diagram shows a cross-section of a pool wall and floor. A horizontal steel pool panel is shown being lowered into place. The panel is supported by a concrete footer and a steel pool panel. A clip is shown at the top of the panel, and an embedded nut is shown in the concrete footer. A stake is shown at the bottom of the panel. Dimensions are indicated: a 2' width for the panel and a 2' pool base for the footer.

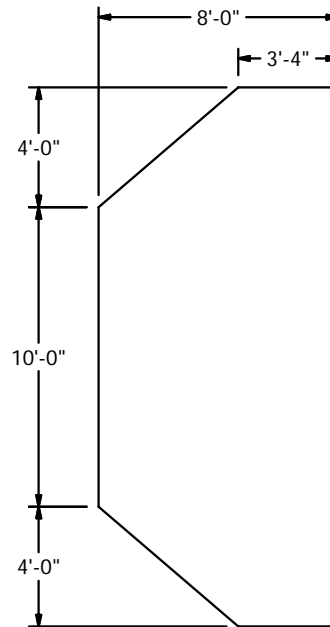

Labels in the diagram include:

- CLIP
- EMBEDDED NUT
- STEEL POOL PANEL
- CONCRETE FOOTER
- 2' POOL BASE
- STAKE

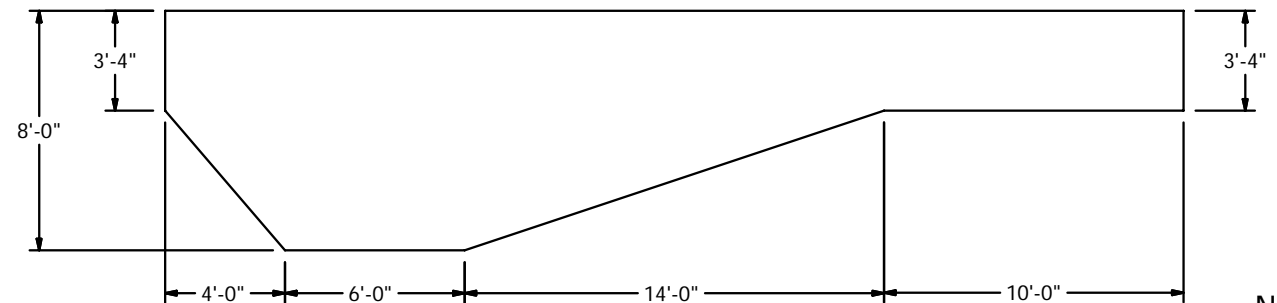

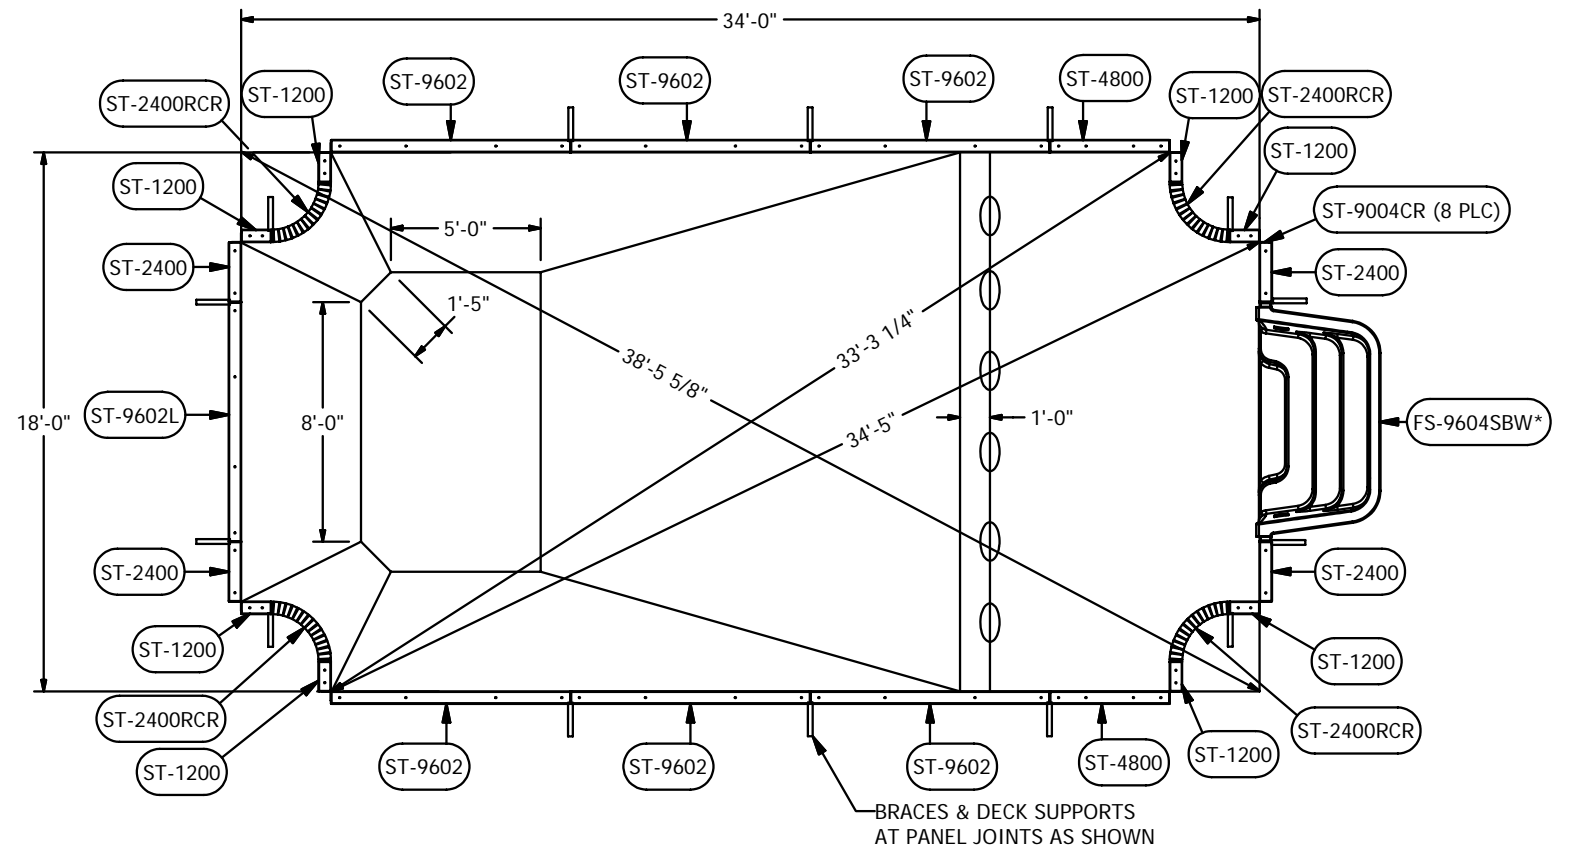

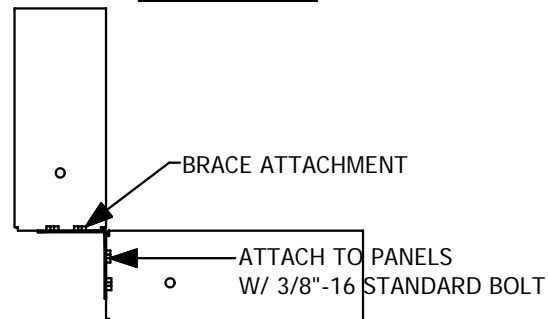

Dimensions shown:

- 2'
- 2' POOL BASE

A diagram of a trapezoidal structure, possibly a dam or a wall. It has a vertical left side, a vertical right side, and a horizontal top. A diagonal line (brace) runs from the top-left corner to the bottom-right corner. A small square is located at the bottom-left corner, filled with a cross-hatch pattern. The entire structure is set against a background of horizontal lines. A small square is also present at the bottom-right corner of the structure.

90° CORNER DETAIL  
OPTIONAL

N.S.P.I. TYPE 2

**NO DIVING** **DANGER: DIVING MAY  
RESULT IN SERIOUS  
INJURY OR DEATH.** 

Signage must be permanently attached around the perimeter of the pool.

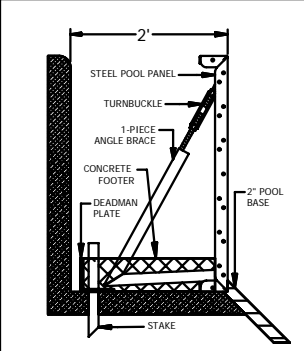

THIS DOCUMENT IS FOR ILLUSTRATIVE PURPOSES ONLY.

Trivector Mfg. Inc. makes only those representations which are stated in its written warranty. Any other representations, statements, or contracts made by the dealer/contractor to the customer regarding any components produced by Trivector Mfg. Inc. are attributable to the dealer/contractor only. The dealer or contractor who sells or installs your pool is an independent contractor and is not an agent or employee of Trivector Mfg. Inc. The construction methods illustrated here are suggestions and apply only to normal ground conditions. There may be additional precautions and/or methods of construction. The responsibility is the contractor's. -A safety line, with buoys, is to be permanently attached 1'-0" to the shallow side of the point of first slope change. -Different methods and precautions may be dictated by various ground conditions. This is to be determined by and is the responsibility of the contractor who is not an agent of the manufacturer of the component parts. -Installation is to be done in accordance with all federal, state and local building codes, as well as A.N.S.I./N.S.P.I. suggested standards. -BOTTOM SPECIFICATIONS MUST MEET OR EXCEED A.N.S.I./N.S.P.I./A.P.S.P. RECOMMENDED STANDARDS -"NO DIVING" signage must be permanently attached to the entire perimeter of the pool. See instructions with signage. **"IT IS RECOMMENDED TO NOT INSTALL DIVING BOARDS AND/OR SLIDING EQUIPMENT ON RESIDENTIAL POOLS".** Then add the following: If diving boards and/or sliding equipment is installed by the contractor, such diving boards and sliding equipment MUST BE INSTALLED WITHIN THE GUIDELINES ESTABLISHED BY ANSI/NSPI/ASPA RECOMMENDED STANDARDS, AND IN ACCORDANCE WITH ALL APPLICABLE STATE AND LOCAL CODES AND REGULATIONS.
